talk tomorrow

Powfu

If you wanna dance then
Dance with me
It's pretty fast but
This is what you do at parties, right?

I've been strugglin', tryna pass classes
Tryna make songs, I been aiming for the masses
Wanna spend time, I don't wanna cause damage
But can't slow down, gotta stay up in that action
I don't wanna quit, but we can restart
I just need you to come back into my arms
When I hear your voice, it makes me sad
Baby, you the one I want, and that's that
Always dark out when I walk these streets
Always alone, talk to myself with ease
Double socks with long sleeves
'Cause without you here, I might freeze, yeah
Halloween when I last saw you
Had to talk and it entered max volume
Middle of the party, told me that you hate me
Used to figure out this shit, but not lately
Yeah

If you wanna dance then
Dance with me
It's pretty fast but
This is what you do at parties, right?

And I've been tryna find a way to get through all the pain
I'm tired of losing, made a promise not to fall again
But then we met, made me notice that my heart could change
And even though we tend to fight, know it's still the same
And I get all up in my feelin's when I hear your voice
Like, how did I end up in something that I can't avoid
I'm so in touch, got me falling straight into the point
See baby, I just miss you bad, I don't gotta choice
I've been feelin' sad and low, know that you can fix it
Livin' on my own, but I'm in need of something different
Used to be the one you want, and now you bein' distant
I don't wanna be alone, I don't want us being finished
Yeah, so I'ma show you where to start
We can talk about the past, fix whatever fell apart
Talk about the feelings that you have around your heart
Or we can dance it out tonight, and we can talk it out tomorrow

If you wanna dance then
Dance with me
It's pretty fast but
This is what you do at parties, right?
