

# until noon

Powfu

49 sheets, all white  
Lock me inside your castle  
35 lit candles  
Love all your plans, hey  
You don't need me to be jealous  
You are the goal that I need  
Only girl inside my feed  
I don't need to keep- keep nothing

Bed- bed- bedtime, throw bed sheets  
You're running my heart while we wrestling  
You're playing with my heart like testing  
I swear this love no ending  
I see you through a portal, yeah  
Life with you, never normal, yeah

I won't be sad if we leave (What I got)  
Decide somewhere they won't be seeing us (What you want me to)  
Lie here beside me all day (What I got)  
When I see you, I never see the sun

(My bad)

Bright light, don't tempt me  
I feel alive like it's summer time in your room  
Sidelines, don't see 'em  
I never felt this freedom  
Shut the blinds, until noon
