

welcome to my world

Powfu

They don't know what's happening, welcome to my world
Pull off of the street 'cause this bitch about to hurl
They know I'll be taking it, hungry for the lights
They know they won't catch me, they ain't even gonna try
They don't know what's happening, welcome to my world
Pull off of the street 'cause this bitch about to hurl
They know I'll be taking it, hungry for the lights
They know they won't catch me, they ain't even gonna try

One to another drug, I just wanna fill my lungs
Give me love, get another burn just to keep me up
One, I don't give a fuck, we just hit another bump
Going fast and I got five lights on the dash
If I crash can you pick me up with the money bags?
If I crash I won't make it home so just hit me back
I won't make it home so just hit me back

They don't know what's happening, welcome to my world
Pull off of the street 'cause this bitch about to hurl
They know I'll be taking it, hungry for the lights
They know they won't catch me, they ain't even gonna try

They don't know what's happening
All these lines really starting to blur
Am I swerving out?
I ain't sure
Police on my ass while my bitch giving me slurp
If I crash it'll be worth it, that's for sure
Now I'm in my cash, it ain't none of your concern
'Cause I know dirty money, all these thots were well-deserved
Where I keep my stash, in my lady's fanny purse
The way I'm burning gas, I'll probably end up in a hearse

They don't know what's happening, welcome to my world
Pull off of the street 'cause this bitch about to hurl
They know I'll be taking it, hungry for the lights
They know they won't catch me, they ain't even gonna try
They don't know what's happening, welcome to my world
Pull off of the street 'cause this bitch about to hurl
They know I'll be taking it, hungry for the lights
They know they won't catch me, they ain't even gonna try
