

# what are u so afraid of (reimagined)

Powfu

What are you so afraid of  
Is it love  
Or wasting your time  
What are you so afraid of  
Is it love  
Or wasting your time

Have a good sleep

Time getting wasted  
Said fuck love  
You arrived and I faced it  
I love you more then I can explain  
And I don't you too die but that's fate  
And I don't want you too cry go be brave  
And I don't want you too lie but can't blame you  
I know it gets hard sometimes so be patient  
Open a door and hope is there wait'n  
Yeah, I think it's time too  
Like'n it bright don't stress can't blind you  
It'll guide you in the battles you fight through  
And it'll save you from the drugs that you might do  
Family is praying you make it  
You aren't the only one don't be mistaken  
Everyone's here for you trust me embrace it  
There's fear in your heart  
Imma help you escape it  
The moon light will take you to all of these places  
That you cannot reach, your sinking deep  
Love you received  
Reflected in pieces  
Want me too leave, I'll be here if you need me

What are you so afraid of  
Is it love  
Or wasting your time

Ay, lookin at photos of you in the sunset  
Been contemplating deleting your content  
Visit your family when I get a chance too  
Your brother just got his first tattoo  
Flowers that spell your initials  
Love isn't easy and death isn't simple  
No I don't feel okay, now I know what I'm afraid of  
Ay, days feel long Imma stay till the end  
I still wait for your message  
Bet I know what you send  
Yeah, sent a heart every sentence  
Locking my door  
Missing your more  
You say your afraid too die but don't be  
Cause angels fly  
(Angels fly)  
Cause angels fly  
(Fly away)  
(Fly away too me)  
(What are you so afraid off)

What are you so afraid of  
Is it love  
Or wasting our time  
What are you so afraid of
