Moments of silence for the rodeo

Could these herkin in them black Chevy's with the windows tinted
Creepin' like we don't know who winnin'
Peekin' tryna catch a lil nigga slippin'
Feenin' that throw a lil nigga in the fences
There's no freedom the black Hue vs the blue demons and you can't hustle the
hood hotter than Phoenix and
I know carryin' a gun is illegal but I don't carry to kill I just don't trus
t people I carry for my protection them haters in my reflection I'm paranoid
can't afford to loose without investin'
What I look like trusting a fucking cop you don't have to commit a crime the
y kill you cause your complexion
This ain't a message this real life a wise man once said "If you can kill on
ce you can kill twice"
Pump Fakin' ass niggas in my Insta comments
They don't know I'm from the same town as Mr. Wallace
Where they be wildin' the only option is violence dude
That ain't a threat that's a promise dude
They show love when I'm drivin' through
Told my old bitch that I'm slidin' through
So we can get higher than the pilot dude
So forget about issues, troubles and problems
We live like no tomorrow
Just to cover our sorrows
Runnin' from our reality

Keep my pass in the back of me
Focusing on my future
Try to stop me I'll shoot ya
