

Back When

Prelow

We're far away from our basement days
The memory's gone but the feeling stays
But in your head we are still the same
I feel alone when we both don't change

You're mad at me for the things I said
I told the truth and that's all I did
Far from me to say how to live
But time is time and you're wasting it

You're free to fall you're free to live
You missed my call but you're glad I did
When the gloves come off we'll be just like kids
And it's not lost though it feels it is

It's free to take it's free to give
[?] and you're falling forever
It all begun in the city bliss
Time will tell and that's the way it is

When I come home can we still get high
And reminisce about times gone by
Said a lot that I regret that night
Face to face you for the [?] life

You're mad at me for the things I said
I told the truth and that's all I did
Far from me to say how to live
But time is time and you're wasting it
You're wasting it

You're free to fall you're free to live
You missed my call but you're glad I did
When the gloves come off we'll be just like kids
And it's not lost though it feels it is
