

Super Cool

Prelow

When the lights started fading
You were just waking up
Keep the cabs always waiting
As you fill up your cup

You collect all your friends
As they collect dust
And you live for tomorrow
'Cause it never enough

But I don't see how you keep it
All inside but I wanna
Read your mind
All page to page and line to line

You're super cool
You check your phone, they check you out right by the pool
You talk a lot, I talk to you, you talk right through
And I admit though I hate that game that I'm drawn to you
And I admit though I hate your game that you're super cool

All the people are leaving
'Cause they've taken the Q
But you're still feeling empty
And you need something new

But I don't see how you keep it
All inside but I wanna
Read your mind
See what I find on the inside

You're super cool
You check your phone, they check you out right by the pool
You talk a lot, I talk to you, you talk right through
And I admit though I hate that game that I'm drawn to you
And I admit though I hate your game that you're super cool
Super cool

But I'm so scared that what I see in you
You see in me too, oh you see in me too
Yeah but I'm so scared that what I see in you
You see in me too, oh you see in me too

You're super cool
You check your phone, they check you out right by the pool
You talk a lot, I talk to you, you talk right through
And I admit though I hate that game that I'm drawn to you
And I admit though I hate your game that you're super cool

Super cool
Super cool
Super cool
