

Let It Out

(Turn the radio up this is the next chart-topper)

I know there's somethin about to blow
I feel it in my soul
A radiation deep within my bones
I could see it in the sky
It's straining from inside
That's beggin me for me to come to life

We are going from the interior
See the rays explode our exterior
All that's left to do is illuminate
Hide your eyes the shine's bound to radiate

Just let it out
Just let it out
Just let it out
Just let it out
Dance til the night comes out

The train is yellin "All aboard!"
It cannot be ignored
It's calling me to get on the dance floor
The bride is shining through the night
Not even knowing why
It's beggin me for me to come to life

This little light of mine
I'm gonna let it shine
