

96 Freestyle

Pressa

Just a young lil' nigga from the 6, I was born in 96
And everybody know that Pressa with the shit
We write his name on a bullet, then we knock him off the list
I told Crodi if they get me bet the hood cry like Nip

I looked up to older bro, but I never looked for shit
Play Station in the Cadillac, I need a whip like his
Instead, I put a forty on the wrist to make a hit
I spent five hundred just to eat with Lil' Bitch
How we supposed to make a million when the police tap my line?
When every time we in the city all we wanna do is slide
I had to put away my pride, now all this water you could dive
You know I got a record deal, but all you niggas still can die
And fucking with me I got family where you at
Nigga you could lose a kidney just like my Uncle Sam
Keep a Glizzy in the party in case the devil wanna dance
And I don't buy it off the streets unless I'm buying it for half
f
I don't buy it off the street unless I'm buying it for half
And I don't know 'bout other niggas, but all my niggas sav'
Told Crodi never lack, but also always keep a stash
Make sure it's twenty-eight on the scale, to be exact
He ain't never catch a body, but today his lucky day
See he shot a couple niggas, but today he got his way
I was going out of town, now I take flights to LA
Need a brick right then and I was fucked if I wait

Just a young lil' nigga from the 6, I was born in 96
And everybody know that Pressa with the shit
We write his name on a bullet, then we knock him off the list
I told Crodi if they get me bet the hood cry like Nip
