I'm here for the industry and leave with it like it came with me  
My heart say miss me, empty like a vacancy  
17 in '83, my niggas they play for keeps

Ask 'em how they really livin', I gotta stay optimistic  
Bad bitch she on me, and she half Vietnamese  
These niggas so fake to me, shoot him once fatally  
My niggas do time for me, hopin' for early release  
Bigger than your OG, understand me capiche?  
My dawg he a animal, he like a cannibal  
This is not technical, just to get technical  
I stay by the court, where life so short, he blew a technical  
It came from over the border, I feel like Al Capone  
Tec' in the mattress, my shooters stay active  
See me out in the public (boom, boom, boom, boom, boom)  
Pull up and dump it, I need my dumpling  
Blow off his front lip, catch his body I'm stuntin'  
They don't want smoke, oh, so what was it over  
Since when you a winner, and your numbers are lower?  
He in Aurora, he pray for the Lord, uh  
And they don't want war, ah
