

# Believe

Preston Pablo

I'll admit I did you wrong but that was way back before  
Plenty women in my past I was tripping for sure  
Had so many chances questions I ain't answer  
And sometimes I sit and wonder what you loving me for

I know any other day you could walk away  
This time I know I don't deserve it  
I been tryna do it right it a different way  
It's the part that's been making me nervous

Might die if you leave

Tell me you believe  
You believe  
You believe  
You believe  
You believe  
You believe me

Tell me you believe  
You believe  
You believe  
You believe  
You believe  
You believe me

And I know  
I trample on your heart  
Each time I lie  
You ain't got no reason to leave me  
Listen to me, baby  
This one time you gotta believe me  
Ohh oh  
Ohh oh

Apologized a million times we been there, yea, I know  
Tell me how to change your mind  
And Imma do it for sure  
Ready to go all in  
Ain't got be no falling  
I deleted all the numbers of them girls out my phone

Might die if you leave

Tell me you believe  
You believe  
You believe  
You believe  
You believe  
You believe me

Tell me you believe  
You believe  
You believe  
You believe  
You believe  
You believe me

And I know  
I trample on your heart  
Each time I lie  
You ain't got no reason to leave me  
Listen to me, baby  
This one time you gotta believe me  
Ohh oh  
Ohh oh  
Oh, girl, you gotta believe me  
Ohh oh  
Ohh oh
