

Do You?

Preston Pablo

I need your body right now, baby come and bring it down
Do you remember how?
Do you remember how?
And I need your body right now, baby come and bring it down
Do you remember how?
Do you remember how?

I can get you here in like ten minutes
But what the fucks the point girl we so finished
But none of these girls don't feel the same, so imma say this a
nyway
It's late at night, just stay the night
I know that I'm on your mind
So come and ride with me tonight
But I can't be yours, and you can't be mine

You know you drive me crazy
I know you love that baby
And every time I'm faded
I'm singing this song
I don't know you now
But I remember now
(Yeah, yeah)

I need your body right now, baby come and bring it down
Do you remember how?
Do you remember how?
And I need your body right now, baby come and bring it down
Do you remember how?
Do you remember how?

Imma get it
Imma light the blunt and burn away my feelings
All the shit you said to me I can't forget it
It's weighing heavy cuz, you were my everything
Told you bout everything
Bought you a diamond ring
This a forever thing
You don't need to hear that anyway
You'll prolly just run away
I remember now, but it's December now

I need your body right now, baby come and bring it down
Do you remember how?
Do you remember how?
