

# She Tried It

Preston Pablo

Only in the night, questions on my mind  
Askin' how she do it, when she do it that's not right  
She took my drink and then she tried it  
She fell in love now she can't hide it

Yeah, baby, I think I'm on again, yeah  
Do you have a man? Don't wanna hear it from your friends  
They fucked up all my plans  
I can tell now that she like it  
I feel so bad now I can't hide it, ooh

Only in the night, questions on my mind  
Askin' how she do it, when she do it that's not right
