

Gotta Wait

The Pretenders

You gotta wait
Well, pull it back and hold it tight
You gotta wait
Another day, another night
You gotta wait
Steady as a judge
You gotta wait
You gotta move before you crouch

You gotta wait, wait, hold the date and hesitate, wait
Wait, wait, take the bait and reinstate, wait
Wait, wait, save a plate and don't be late, wait

You gotta wait
Like a car that wouldn't start
You gotta wait
At the pharmacy or Walmart
You gotta wait
On an oxycodone comedown
You gotta wait
Unload and put your gun down

You gotta wait, wait, hold the date and hesitate, wait
Wait, wait, take the bait and reinstate, wait
Wait, wait, save a plate and don't be late, wait

You gotta wait
And the waiting is to solve
You gotta wait
Can you see where you belong
You gotta wait
A hundred million faces
You gotta wait
You were going stranger places

You gotta wait, wait, hold the date and hesitate, wait
Wait, wait, take the bait and reinstate, wait
Wait, wait, save a plate and don't be late, wait
