

My Mind Is A Box

Pretty Balanced

My attention is cashed so don't
Talk to me anymore be the
Subject terrifying or
Important or pure
My cigarettes are spent so don't
Expect productivity be the
Matter just or crucial or
Personal or reactive
My mind is a box and you put things in and you
Take things out and it's empty
My mind is a box and you gut it then and you
Flatten it and you leave me blank and the
World is big my body's small my
Body's short the world is tall

So fill me up with chemicals or
Other people's words
I shout it from this pretty hole in
Modes and fifths and thirds
My mind is a box
My mind is a lie
My mind

My mind is a line running down my spine
Like a vine of green and psychedelic
Iridescent rainbows
My body is built like a function of mechanics
Like a robot when he gives himself his
Own petty instructions
My mind is a box and you put things in and you
Take things out and it's empty
My mind is a box and you gut it then and you
Flatten it and you leave me blank and the
World is big my body's small my
Body's short the world is tall

So fill me up with chemicals or
Other people's words
I shout it from this pretty hole in
Modes and fifths and thirds
I steep up an infusion there and
Pour it on these keys
I'm influenced so easily so
Influence me please
Just
Fill me up with chemicals or
Other people's words
I shout it from this pretty hole in
Modes and fifths and thirds
I steep up an infusion there and
Pour it on these keys
I'm influenced so easily so
Influence me please
I'm influenced so easily so
Influence me please
