

# We Can't Bring Back Yesterday

Pretty Boy Floyd

I keep remembering when we were young  
Everything we've said and everything we've done  
Sometimes it's hard to believe it  
Now we've all grown and times have changed  
Tell me what went wrong and who's to blame  
The past is gone but I still need it

(CHORUS)

Oh baby  
Two hearts on a holiday  
You and I and nothing else mattered  
Memories don't fade away  
They just stand still til' we're gone

We can't bring back yesterday (No it's too late)  
We still have tomorrow (And it'll be alright)  
We can't bring back yesterday  
Gonna think you know  
After all the love  
We both still have tonight

I never it said it has to end  
But only if I could I'd do it all again  
And things will be the way I planned them yeah  
You'll see no tears with hopes and dreams  
It was made for you and you for me  
No need for us to understand them

(CHORUS)

Oh baby  
Two hearts on a holiday  
You and I and nothing else mattered  
Memories don't fade away  
They just stand still til' we're gone

We can't bring back yesterday (No it's too late)  
We still have tomorrow (And it'll be alright)  
We can't bring back yesterday  
Gonna think you know  
After all the love  
We both still have tonight

Oh yeah

(GUITAR SOLO)

We both still have tonight  
No oh...  
Baby

You this doesn't have to end  
To leave the past behind  
Forgetting what it used to be  
Cus' the future's right there in your eyes

(CHORUS)

Oh baby  
Two hearts on a holiday

You and I and nothing else mattered  
Memories don't fade away  
They just stand still til' we're gone

We can't bring back yesterday (No it's too late)  
We still have tomorrow (And it'll be alright)  
We can't bring back yesterday  
Gonna think you know  
After all the love  
We both still have...

We can't bring back yesterday  
We can tomorrow  
We can't bring back yesterday  
No it's too late  
We can't bring back yesterday  
Oh No  
We can't bring back yesterday  
I cannot bring it back
