

A Place in the Night

Pretty Maids

Watching the night life
see the creatures of the street
charming ladies dressed to kill
Movin' on to get a deal for the night

Out in the dark the fire is on
the heat is burning
and something strange
is running through my veins
drivin' me insane oh

[Chorus:]

Searching for a place in the night
I don't wanna hear you call
lookin' hard for somewhere to hide away

Oceans of passion
running slow through my mind
as the fever starts to burn
something tells me to return and go home

I'm on the loose
I don't even know which way to choose
like a stranger in the night
like a loser in a fight
I'm totally left out on my own

[Chorus]

[Solo]

[Chorus]

Walkin' in circles
with the pieces of the past
all those memories on my mind
how do I escape that time and forget

Mystical woman, I was blinded, didn't see
I was just like hypnotized, dreamer in disguise
always meant to be, yeah

[Chorus]
