

# Breathless

Pretty Maids

Well sense you've be gone  
Walked out of my life  
It's been a misery  
You're all that I want  
And woman I'd die for your company

Baby you're no less  
Than miles above the rest

Girl you leave me breathless  
You're so precious  
Give me reason  
To believe in  
There'll be a place in your heart  
Girl you leave me breathless  
My little goddess  
Want you near me  
Can your hear me  
Don't tear my whole world apart

The love that we shared  
The moments we had  
Feels like yesterday  
Your mystical eyes  
The physical ties  
Yet seems so far away

Girl how do I cope  
Without you there ain't no hope

Girl you leave me breathless  
You're so precious  
Give me reason  
To believe in  
There'll be a place in your heart  
Girl you leave me breathless  
My little goddess  
Want you near me  
Can your hear me  
Don't tear my whole world apart (3x)
