

# Children of Tomorrow

Pretty Maids

They live in the streets  
Outside the walls  
Left out in the cold  
There's nowhere to sleep  
They've taken the fall  
Into the hole

They grew up with violence  
They learned how to hate  
And learned how to fear  
They searched for silence  
Before it was too late  
Before it was disappeared

Chorus:

Where is the future  
Where is the past  
The answer's unknown  
But the child of tomorrow  
Don't know where he is  
Or where he shall go  
They are the children of sorrow  
They are the children of tomorrow

And all their illusions  
All of their dreams  
Are all gone so far  
They live with confusion  
Don't know what it means  
Don't know who they are

So rise all you children  
Come back to life  
You're wasting your time  
'Cause you are the future  
You are not left behind

Chorus
