Gonna hit this town tonight
Let your troubles out of sight
Scream out, spread the word around
Get all up and stand your ground

That's when your heart starts to pound To the beat and the sound We'll rock the night away So just hold on to your dreams And just keep on believing We're living for today

Loud and proud
Loud and proud
Oh oh oh
Loud and proud
Loud and proud

In the cities
In the halls
Throw a party, have a ball
Raise your hands to Rock'n'roll
Let the rhythm take control

That's when your heart starts to pound To the beat and the sound We'll rock the night away So just hold on to your dreams And just keep on believing We're living for today

[Chorus]

That's when your heart starts to pound To the beat and the sound We'll rock the night away

[Chorus]
