Pandemonium

Pretty Maids

Heading down the wrong track Yet another set back Living is a death trap

Generation haedless String up a bad mess demolition madness

Lost forever all together we fall

Prophecies unfolding The fireball is rolling Another promise broken

As the clock is ticking faster Mayhem and disaster And chaos ever after

Lost forever all together we fall

Sweet Mother Earth mankind come undone Enemies of reality Planet panic Pandemonium Killing you, killing me

Critical condition Man without a vision No qualified decisions

Mayday mayday mayday show me leadership A sea of lies empty words and politics Crashed dreams mad world sick of it

Lost forever all together we fall
