But what's up with these childish games you playing on my phone number  
Attracted

But I'm bout to leave you alone

Why you still acting like you in the 6th grade

All I'm trying to do is chill wit' you and get paid

It's a shame bad news caught you at my crib

Snoopin' through my room

Lookin' like a spy kid; bad as you is

I had ta give you props; but den I had to stop

When you got hot cuz' I wouldn't give you this lollipop

When you finally grow up let me know

Girl you got a body like you 18

But you way too young for my fantasy

I would date you; but a player might get caught

And I ain't tryin' ta hear ya mami mouth in court

I know I love you

You know you love me

So can you wait just 1 mo'year for me

I'm lookin' for a baby mama

Girl let's make some drama

I ain't worried cuz' my bank account got commas

So holla at me when you turn 18

But until den all I can do is daydream

Cuz' ya lips look soft

Girl hang my posters on ya wall

Kiss 'em every nite cuz' I feel it all

Whoa!
