

I inch myself on
Tip-top of the cardboard seat
I stretch my arms out
I stare out bright lit streets
I take my top off
I open my heart and chest
With stars in their eyes
The streets stare back at my breast

Pick me up baby and take me to your hood
Oh when you touch me wow that feels really good
Take me to drugstore I need to buy eyeliner
On the list to see me cus I'm the headliner

I master bass lines on the track
I master bass lines on the track
If he rocks with me once he won't go back
I master bass lines on the track

I master bass lines on the track
I master bass lines on the track
If he rocks with me once he won't go back
I master bass lines on the track

I master bass lines on the track
I master bass lines on the track
If he rocks with me once he won't go back
I master bass lines on the track

I master bass lines on the track
I master bass lines on the track
If he rocks with me once he won't go back

Is it true?
Does your heart beat for me?
