

Self Control

Pretty Sick

I don't have no self-control
When it comes down down to you
I don't know what I am doing
Not when I fuck up
Punish myself mornings after
But I can't help myself

I don't have no self-control
When it comes down down to you
I don't know what I am doing
Not when I fuck up
Want so badly to make you happy
But I can't help myself

I don't have no self-control
When it comes down down down down
I don't have no self-control
When it comes down down down down down
