

With all the songs within my head  
There ain't one for this  
This feeling that's inside  
That goes on and on and on and on and on  
Wherever I am, whoever I'm with  
Don't believe me 'till you try

Who can mend? Who can help?  
Tell me, tell me, tell me an answer  
Ease me, ease me, ease my mind

This empty space inside my chest  
Where no love is left  
I hate you when you smile  
'Cause you talk and talk and talk and talk  
But who was to blame?  
You named and you shamed and threw me in the fire

Who can mend? Who can help?  
Tell me, tell me, tell me an answer  
Ease me, ease me, ease my mind
