

Good Thang

Pretty Willie

She got the best conversation, she look good from head to toe
I think one day she just might become the future Willie Moe
She shop at Bebe BCBG and she floss her Gucci frames
Got her own car and house, she ain't sufferin' for a thang
Plus she go to church on Sunday and she finally gettin' saved
I didn't even know she was promiscuous back in her younger days
Uh-huh, I used to be the same way, I can't even fuss or fight
I just figured she'll stay with me if I kept the lovin' tight

I let you know that you're my good thang
Even if you make a mistake and do the wrong thang
I'll forgive you, I just believe that you and I are supposed to be together
(Hold on and don't let go)
Through everything that we done been through we still stay together
(Uh-huh)
I just pray that we can make this thing last forever
I do adore you so, you know you can ask for whatever
(Hold on and don't let go)

Now when she say she really love me it make me wanna love her more
You can catch us at your local shoppin' centers at the store
Buying Gucci, Coach, and Louie, she enjoys the finer thangs
Yes we workin' with two incomes so the money ain't a thang
See we've been thinkin' about vacation, Hawaii maybe Jamaica
I would rather do Tahiti or the coast of Costa Rica
It don't matter, we together, we enjoy doin' our thang
Two hearts finally came together and I'd sealed it with a ring

I let you know that you're my good thang
Even if you make a mistake and do the wrong thang
I'll forgive you, I just believe that you and I are supposed to be together
(Hold on and don't let go)
Through everything that we done been through we still stay together
I just pray that we can make this thing last forever (Woo)
I do adore you so, you know you can ask for whatever
(Hold on and don't let go)

You're the one who held me down through the hard time
Physically, mentally, body and soul, you are mine
The only light that I wanna see so you gotta shine
(Hold on and don't let go)
I'll be here, hands open wide
Just ask and I will provide
For the rest of my life
We shall never divide
And all the nights that you cried
Just do this for me baby
(Hold on and don't let go)

I let you know that you're my good thang
Even if you make a mistake and do the wrong thang
I'll forgive you, I just believe that you and I are supposed to be together
Hey, hey (Hold on and don't let go)
Through everything that we done been through we still stay together
I just pray that we can make this thing last forever (Woo)
I do adore you so, you know you can ask for whatever
(Hold on and don't let go)

You're my good thang, my good thang
You're my good thang
Hold on (Hold on and don't let go)
You're my good thang, my good thang
You're my good thang, hold on
(Hold on and don't let go)
