

BETTER THAN THE FIRST TIME

PRETTYMUCH

(Girl, this feels better)
(I think it's better)
(PRETTYMUCH, PRETTYMUCH)

Yeah
Give me the work, I'm a workaholic
Always makes me finish what we started (Started)
Coming right back to her like alcoholic
Can't get off it (No way)
Nobody can top it

Some things you can't ignore (No)
All your problems fallin' to the floor (Floor)
We got caught up in the back and forth
Just to relax into the same thing as before

Girl, this feels better than the first time
Why this feel better than the first time?
Girl, this feel better than the last time
When we're together even our issues better
Girl, this feels better than the first time
Why this feel better than the first time?
Girl, this feel better than the last time
When we're together even our issues better

I can't be modest
I gotta be honest
I don't need you to promise
I see the path you're on, I double cross it
Next time you're going through withdrawals
I can be your deposit
This time I'll give it all I got

Some things you can't ignore (Can't ignore)
All your problems falling to the floor
We got caught up in the back and forth
Just to relax into the same thing as before

Girl, this feels better than the first time
Why this feel better than the first time?
Girl, this feel better than the last time
When we're together even our issues better
Girl, this feels better than the first time
Why this feel better than the first time?
Girl, this feel better than the last time
When we're together even our issues better

Yeah, when you gone it's harder for me
Got a lotta hoes targetin' me
That's what happen when you pop in the streets
Not a lot of niggas work harder than me
You the one I want right now, the only one I want
I could put it on you now, mm
Girl, you were mine when I met you
And I was yours
Wish that we stayed the course

Some things you can't ignore
All your problems falling to the floor
We got caught up in the back and forth
Just to relax into the same thing as before

Girl, this feels better than the first time
Why this feel better than the first time?
Girl, this feel better than the last time
When we're together even our issues better
Girl, this feels better than the first time
Why this feel better than the first time?
Girl, this feel better than the last time
When we're together even our issues better

(Girl, this feels better than the first time)
(Why this feel better than the first time?)
(Girl, this feel better than the last time)
(When we're together even our issues better)
