

Love

PRETTYMUCH

I know I should take my time but I won't tonight
I can't help but show my cards on the table
I know why you like my type, I'm the only one
But next time just bang my line if you able

So go ahead and take it back
So I can put your words behind that
Talk is such a cheap reminder of the first time we made love

Go ahead
Go ahead
Take it off of me, baby
Cause this feels just like the first time we made love
Go ahead
Go ahead
Take it off of me, baby
Cause this feels just like the first time

Just for the day
Maybe we can press rewind
Maybe we can take our time
You know I like that body on mine
Let's get it in, no rest
Watching as you lower that dress
Can't help but reminisce
'Bout what we had and how to get back

So go ahead and take it back
So I can put your words behind that
Talk is such a cheap reminder
of the first time we made love

Go ahead
Go ahead
Take it off of me, baby
Cause this feels just like the first time we made love
Go ahead
Go ahead
Take it off of me, baby
Cause this feels just like the first time
Again

Know you really wanna say sum'n baby
This ain't nothing we ain't said already
You ain't gotta feel no ways, just take it off, take it off
Know you really wanna say sum'n baby
Say you feel like I done changed already
Baby, I just feel the same, so take it off, take it off
Let's make love

Go ahead
Go ahead
Take it off of me, baby
Cause this feels just like the first time we made love
Go ahead
Go ahead
Take it off of me, baby

Cause this feels just like the first time
We made love
Cause this feels just like the first time
Again
