

Rock Witchu

PRETTYMUCH

Take my hand
I let you take all my time
I let you take all my pride
I let you read 'tween these lines, babe
Jus' take one second, babe (Second)
To realize
That I just might change your life
When I

The way you get low, feelin' it in my chest, baby
I need medication, thinkin' that you the best, girl
It's true, whoa
And the more I think about it
I want it more, babe
Never been so in love with nobody else before, babe
Thinkin' of all the right things to say to you (Right things to say to you)
(Let's get down)

Come on baby, let me rock witchu
Come on baby, let me rock witchu (Rock witchu)
Girl, you know I know a thing or two
Come on baby, let me (Whoa-oh)
Come on baby, let me rock witchu (Ah, ah)
Come on baby, let me rock witchu (Rock witchu)
Girl, you know I know a thing or two (Hold up!)
Come on baby, let me (Whoa-oh)

I got one, two, three, four reasons
you should rock with me, babe
I get you wine and dinin'
Summer time is all about you, babe
Take you to my place, to my new estate
Pour you up a drink, baby, what you think?
Like off no green we could medicate, like
Hold up!

The way you get low, feelin' it in my chest, baby
I need medication, thinkin' that you the best, girl
It's true, whoa
And the more I think about it
I want it more, babe
Never been so in love with nobody else before, babe
