

Would You Mind

PRETTYMUCH

If I pulled you closer would you mind?
Would you mind? Would you mind?
Let's go!

Say you don't catch feelings
Say you ain't the love type
I'mma have to work then the whole night
Nothing like your ex, no
This ain't what you're used to
Just give me that chance, girl
Won't lose you

And I know you've been hurt before but
I'll make it better for ya
I'll make it better for ya, for ya, ow!
And you heard it all before but
I've got a question for ya
I've got a question

If I pulled you closer would you mind?
Would you mind? Would you mind?
If my hands get lower when we grind
When we grind, would you mind?
If I pulled you closer would you

Let's not waste a moment
ain't no need to be shy
I got room for your friends
if your friends want a ride
Tell them not to stress through
I'll treat you so special
Just give me the chance, girl
And I won't let go

And I know you've been hurt before but
I'll make it better for ya
I'll make it better for ya, for ya, ow!
And you heard it all before but
I've got a question for ya
I've got a question

If I pulled you closer would you mind?
Would you mind? Would you mind?
If my hands get lower when we grind
When we grind, would you mind?
If I pulled you closer would you

Mind, mind, (c'mon) mind, mind, mind
Tell me, baby, would you mind?
Tell me, baby, would you mind? (aye, aye)
Mind, mind, mind, mind, mind
Tell me, baby, would you mind?
Tell me, baby, would you mind?

Girl, I know you've been hurt before but
I'll make it better for ya
I'll make it better for ya, for ya

I'll make it better

If I pulled you closer would you mind?
Would you mind? Would you mind?
If my hands get lower when we grind
When we grind, would you mind?
If I pulled you closer would you mind?
(I know you've been hurt before
But I'll make it better for ya)
Would you mind? Would you mind?
(I'll make it better for ya, for ya)
If my hands get lower when we grind
(And you heard it all before
But I got a question for ya, I got a question)
When we grind, would you mind?
If I pulled you closer, would you mind, babe?
