

## Voices

Prezioso

Oh come around away with me  
See colored worlds and fantasy  
So lost in love will have some fun  
When flying off reality

Now all the worlds you're whispering  
Are going through eternity  
So if you want to stay with me  
Believe is what you need to feel

Baby bring me to you  
And now when this dreams comes true  
Uouououo

I hear voices es es I hear voices es es I hear voices es es  
The loudness of the voice is clear  
Real nature of our destiny  
Will bring us to the highest place  
So you can always find me there

And all those things you lost inside  
Will come and keep you still alive  
So baby please believe in me  
Cause faith is what you need to see

I've got to be so close to you  
And now when this dream comes tru

I hear voices es es  
I hear voices es es  
I hear voices es es
