

## Secret of the Way

Pride of Lions

(Secret of the way, ooh)

I bet you took an oath of silence  
when you were just a little girl  
Your mother said to keep your secrets  
Don't ya share 'em with the world  
Save your heart for that special someone  
The one that holds the key  
Now you're here I felt the touch  
You've been saving just for me

And it's the secret of the way you move me  
Even when I'm standing still  
The wonder of the way you hear my heart  
When no one on this planet will  
It's not your lips, your kiss, your motion  
It's not some magic words you say  
It's secret of the way

Now you can say as much with silence  
As some girls with a thousand words  
Between the lines outside the borders  
That's where your inner voice is heard  
I pity those who have missed your beauty  
You've never been the obvious one  
Now I'm an eyelash away from heaven  
One wink and I'll come undone

And it's the secret of the way you move me  
Even when I'm standing still  
The wonder of the way you hear my heart  
When no one on this planet will  
It's not your lips, your kiss, your motion  
It's not some magic words you say  
It's secret of the way

There's something mystic in your lace and lipstick  
A power that cuts to my heart and soul  
Do you know how your innocence sends me  
So totally of our control

And it's the secret of the way you move me  
Even when I'm standing still  
The wonder of the way you hear my heart  
When no one on this planet will  
And it's the secret of the way you move me  
Even when I'm standing still  
The wonder of the way you hear my heart  
When no one on this planet will  
And it's the secret of the way  
Even when I'm standing still  
The wonder of the way  
When no one on this planet will  
And it's the secret of the way you move me  
Even when I'm standing still  
And it's the secret of the way  
The wonder of the way

When no one on this planet will  
And it's the secret of the way  
(Secret of the way, ooh)
