

Leave Me Alone

Priests

Maybe you kiss a lot of girls, maybe you have a lot of boyfriends
You won't leave me alone
I see you when I'm out on the street
I see you in every single person that I meet
You wanna know what I think?
I think you look like a creep
You won't leave me alone
And I'm not so sure that I want you to
I'm not so sure but leave me alone
