

## Powertrip

Priests

Think its time think its time think its time that you own up to  
the fact: You have a complex  
You have a complex  
You have a complex  
Deny it deny it deny it deny it deny it deny it to the death  
Think about it next time that you gotta wring somebody's neck  
Is it hard wiring?  
Or just your context?  
Just your context?  
Just your context?  
One big sociopathic powertrip?  
You trying to grab something or cut it off instead?
