

Inside Out

Prima J

When You look at me
tell me what do you see
beyond these green eyes
So much more to me
Simplicity much more that matters
I'll wipe off my make-up
Take off my pretty clothes
I'll let my hair down baby
Yeah, I can be natural
Stand here on the road
Proud as hell
so you know what I'm all about

Uh huh
From the inside out
The inside out, the inside out
Thats right It's a fact

Society puts on the pressure
and I ain't gonna lie Its hard to weather
but if you know who you are say Hey, Hey
And if you know who you are it's ok.

Would you be afriad if you wasn't down with the outside
If you turned me inside out.
You would understand
that if you only knew the inside
then you turn me inside out

When you look at me tell me what you see
a mind thats endless
a soul thats yearning
a heart thats priceless
It's time for me to confess
show you what I'm about
There be no more front baby
Cause the real's coming out
Take you on this little journey
So you know how it's going down

Uh huh
From the inside out
The inside out, the inside out
Thats right It's a fact

Magazines put on the pressure
And I ain't gonna lie I try to measure up
but as long as you true to you
Be your best then thats all you can do

Would you be afriad if you wasn't down with the outside
If you turned me inside out.
You would understand
that if you only knew the inside
then you turn me inside out

Its a hard thing baby

that keeps on and one and on
Turn it inside, turn it inside out
Its a hard thing baby
that keeps on and one and on
Turn it inside, turn it inside out
Its a hard thing baby
that keeps on and one and on
Turn it inside, turn it inside out

Would you be afraid if you wasn't down with the outside
If you turned me inside out.
You would understand
that if you only knew the inside
then you turn me inside out

Would you be afraid if you wasn't down with the outside
If you turned me inside out.
You would understand
that if you only knew the inside
then you turn me inside out
