

Cannonball

Primal Fear

I've tried to climb the mountains
Sailed the seven seas
Getting closer to the sun
It's too late for my own mistakes

Blindness forever reigns
From the yesterdays mind
Every logic has disappeared
There's no call from the human side

When the sky is falling down
And the new day's dawning
And the clouds are storming by
We can see there's nothing left

Shoot shoot
Like a cannonball
Shoot shoot
The war is over
Shoot shoot
Like a cannonball

There's a way back to sanity
When death comes closer
Brothers will fight and die
Nobody knows the reason why

Where insanity reigns there will be no winners
Until the rotten core
You'll see the face of the sinners

When the sky is falling down
And the new day's dawning
And the clouds are storming by
We can see there's nothing left
To fight

Shoot shoot
Like a cannonball
Shoot shoot
The war is over
Shoot shoot
Like a cannonball

Shoot shoot
Like a cannonball
Shoot shoot
The war is over
Shoot shoot
Like a cannonball

When the sky is falling down
And the new day's dawning

And the clouds are storming by
We can see there's nothing left
To fight

Shoot shoot
Like a cannonball
Shoot shoot
The war is over
Shoot shoot
Like a cannonball

Shoot shoot
Like a cannonball
Shoot shoot
The war is over
Shoot shoot
Like a cannonball

Shoot
