

Destroyer

Primal Fear

I am alive, defeating the lies
I am ready to start the fight
Do you listen to what the wise men say
No obscurity just dig your grave

Move on
Move on
Move on

He saves the world the end in his hands
Destroyer
He's standing tall will the sun rise again
Destroyer
Move on

The destination is no more war
The healer heals you
To escape it all
There is still a chance to save the world
No more war no flag unfurled

Move on
Move on
Move on

He saves the world the end in his hands
Destroyer
He's standing tall will the sun rise again
Destroyer
Move on

Move on
Move on
Move on

He saves the world the end in his hands
Destroyer
He's standing tall will the sun rise again
Destroyer
Oh he saves the world the end in his hands
Destroyer
And when he's standing tall will the sun rise again
Destroyer
Move on
