

Far Away

Primal Fear

It was a mistake to leave you this way
And I regret
Now I'm sitting here thinking about you
So what's the sense?

You see - I leave
No time to disbelieve

Over the seas and oh so far away
Through ice and fire higher and higher
You're so far away
Over the seas and oh so far away
Through desert and storms I'm coming home
You're so far away

It's time for me to come home again
We'll find a way
I'll start my journey even if it's hard
I have to pay

You see - I leave
No time to disbelieve

Over the seas and oh so far away
Through ice and fire higher and higher
You're so far away
Over the seas and oh so far away
Through desert and storms I'm coming home
You're so far away

I regret what I've done
Through ice and fire

You see - I leave
No time to disbelieve
You see - I leave
No time to disbelieve

Over the seas and oh so far away
Through ice and fire higher and higher
You're so far away
Over the seas and oh so far away
Through desert and storms I'm coming home
You're so far away

You're so far away
