Fearless

Primal Fear

Taking the level up high
Successful on the first try
Taking my chances
But never rely on the chances
It's easy to give it a go
If you don't, you never will know
If I were afraid when I tried
I would never have started

They say that good things
Last forever
And even if they fail
They make you wiser
No master fell out of the sky
Stay tuned and go your own way

Try but never fear the fall
Get up and try again
'Cause we're born to fail
And learn from our mistakes
'Cause man is made to grow by failure
Never give it in
Keep on trying, go ahead
And never stop
Fearless

It is the sign of the times
That make me write down all these lines
But nothing can stop me
From hoping that things will get better
I've always believe in the good
Sometimes I've been misunderstood
But I will never give in
On my positive thinking

They say that good things
Last forever
And even if they fail
They make you wiser
No master fell out of the sky
Stay tuned and go your own way

Try but never fear the fall
Get up and try again
'Cause we're born to fail
And learn from our mistakes
'Cause man is made to grow by failure
Never give it in
Keep on trying, go ahead
And never stop

Try but never fear the fall
Get up and try again
'Cause we're born to fail
And learn from our mistakes
'Cause man is made to grow by failure
Never give it in

```
Keep on trying, go ahead
And never stop
Fearless
Fearless
```

Keep on trying, go ahead
And never stop
Fearless
Fearless
