

Forever

Primal Fear

Walking with you on holy ground
Watching the Sun going down

No more tears
Not one more goodbye
Take my hand
We'll hold each other tight

One love, one soul
We will live forever
One love, one soul
One love, one soul
We will live forever
One love, one soul

Whatever will happen
Whatever will change
I'll stand beside you
Day and night

No more tears
Not one more goodbye
Take my hand
I'll hold you tight

One love, one soul
We will live forever
One love, one soul
One love, one soul
We will live forever
One love, one soul

One love, one soul
We will live forever
One love, one soul
One love, one soul
We will live forever
One love, one soul

One love, one soul
We will live forever
One love, one soul
One love, one soul
We will live forever
One love, one soul
