

March Boy March

Primal Fear

Nothing and no one can stop you
There is no barrier
Fearless and faithful, determined
You walk through walls
Steady, endurance
A tough physical unison
Muscles and tendons under maximum control

Chains and shackles thorns around your neck
Every step is torture you don't let it get you down

Your legend lives and lasts forever
In the books of history
Your legend lives and lasts forever

March boy march
March boy march
March boy march
March boy march

The scout, trailblazer, explorer
Courageous and so selfless
You are the one who saves us all
Nobly you clear the way
To destroy the enemy, the villain
Lurking in ambush

Like a martyr without any fear
In the morning haze, sight and focus, always clear

Your virtue is to fight for freedom
Driving out the enemy
Your legend lives and lasts forever

March boy march
March boy march
March boy march
March boy march

Det er ikke mangel på tid, vi har, men en masse tid vi ikke bruger
(It's not the lack of time we have but a lot of time we don't use)

Hans hænder er rene, som advarer en anden
(His hands are clean that warns another)

March boy march
March boy march
March boy march
March boy march

March boy march
March boy march
March boy march
