

# Rollercoaster

Primal Fear

Swimming in a pool of sharks  
Diving in a sea of snakes  
Oh, I'm going insane

The needle still injects my blood  
A blazing pain, a burning flood  
I'm nailed to the cross

Consequences melting down reality  
My face turns black,  
I'm off the radar screen

Inside of a demon - he said: burn, burn, burn  
The mind of a devil - like a rollercoaster  
Inside of a demon - he said: burn, burn, burn  
In need of an angel to protect me from myself

Standing in the line of fire  
Running through the fields of war  
When my hope's been stolen now

Please help me  
Mend my broken wings  
I have no hope,  
But still believe  
before I lose my faith

No evidence remains,  
When I will fly away  
I've disappeared,  
I'm off the radar screen

Inside of a demon - he said: burn, burn, burn  
The mind of a devil - like a rollercoaster  
Inside of a demon - he said: burn, burn, burn  
In need of an angel to protect me from myself
