## **Seven Seals**

## **Primal Fear**

The time has come - the end is near A firestorm The curse is done, my search is over The Altar of souls

Don't wanna be the one to live in fear Seven angels getting near Don't wanna be the one get out of here Red moonlight's calling!

The final day the sky will fall down
And we might all drown
If seven seals will break
The final day will end in sorrow
There's no tomorrow
If seven seals will break

Four beasts of death, holy and true The noise of thunder The stars of heaven fell to earth Another wonder

Don't wanna be the one to live in fear Seven angels getting near Don't wanna be the one get out of here Red moonlight's calling!

The final day the sky will fall down
And we might all drown
If seven seals will break
The final day will end in sorrow
There's no tomorrow
If seven seals will break
