

## The Devil In Me

Primal Fear

On my way to reach heaven  
In the darkest night  
When an angel is heading to hell

Some call in hit and run  
Some others hold a gun  
Hear the sound of the bell

Someday the curse will be done  
Now is the time  
That we're waiting for so long

Hang tough - stay wild  
There's no return  
The devil in me

Hang tough  
On the wing of an eagle  
There's no return  
The devil in me

The full moon is rising  
The raven dies  
It is time to start our story

The eyes of a cat  
The cry of a witch  
A night made with glory

Someday the curse will be done  
Now is the time  
That we're waiting for so long

Hang tough - stay wild  
There's no return  
The devil in me  
Hang tough  
On the wing of an eagle  
There's no return  
The devil in me
