

## The Union

Primal Fear

To be real friends for eternity  
This is the oath, we once swore  
Honestly and morality  
These are goals we're fighting for

Always the aim in mind  
We're willing to succeed  
To fight not disinclined  
Our way we will proceed

Your will is my will  
Your fate is my destiny  
In good as in bad times  
Our union will ever be

Endless trust in our loyalty  
Law is to be, friends till the end  
Your life is precious  
As precious as mine

I give you my soul into your hands

Always the aim in mind  
We're willing to succeed  
To fight not disinclined  
Our way we will proceed

Your will is my will  
Your fate is my destiny  
In good as in bad times  
Our union will ever be
