

Their Gods Have Failed

Primal Fear

I'll stay awake as your nightguard
'Cause you never know
When they're attacking, oh
The moon shines its light onto the battlefield
As I visualize scenes of the fight

And we will stand together
It's all for one, one for all
Oh, they will never beat us
We're solid as a rock, like a wall
And we never will retreat

They will try to break us
And we give them Hell
When the enemy falls
It's hard to believe
That their gods have failed
Not afraid of dying
Our hearts so brave
We will never give in
'Cause it's hard to believe
That their gods have failed

The stars faded out
On this daybreak
The moment of glory is nearing
The Sun sends its heat
Onto the battlefield
As I raise my voice for a battle cry

And we will fight together
It's all for one, one for all
Uh, they will never beat us
We're solid as a rock, like a wall
And we never will retreat

They will try to break us
And we give them Hell
When the enemy falls
It's hard to believe
That their gods have failed
Not afraid of dying
Our hearts so brave
We will never give in
'Cause it's hard to believe
That their gods have failed

After so many years of oppression
We have finally gathered here
To defeat our enemy
They put our families into grief
Stole our soil and weakened our hearts
Now the time has come to take revenge
Let us banish them from our lives forever
With all your might and all your power
Attack

And we will fight together
It's all for one, one for all
Uh, they will never beat us
We're solid as a rock, like a wall
And we never will retreat

They will try to break us
And we give them Hell
When the enemy falls
It's hard to believe
That their gods have failed
Not afraid of dying
Our hearts so brave
We will never give in
'Cause it's hard to believe
That their gods have failed
