

# All Fall Down

Primal Scream

Once upon a time  
You seemed impossible to see  
Before the mast, forget the past  
To find a for me

Falling from a tower, softly  
Landing in the grass  
Spend my  
Quoting how I  
Hope this feeling lasts Oh, oh, oh

I can see you falling  
Down, down, down, down, down  
You know I love to

I'm immersed in the  
Fret of a promise never kept  
Walk around never knowing where I'm going  
All fall down

La la la la la....la  
La la la la la....la  
I'd love to hang with you

I'm immersed in the  
Fret of a promise never kept  
Walk around never knowing where I'm going  
All fall down  
All fall down  
All fall down
