

# Deep Dark Waters

## Primal Scream

Echoes from the past  
Day by day reminders  
We swore "they shall not pass"  
I fear the worst shall surely find us

The future bent and spent  
In dark enlightenment  
The "people they have spoken"  
The serpents egg cracked open  
Bodies washed up on the beach  
Children drowning out of reach  
Hear the children cry

This ship is sailing  
Into deep dark waters  
All systems are failing  
We go like cattle to the slaughter  
To the slaughter...

Shadows from the past  
Cancelling the future  
We thought we'd seen the last  
Of the Euro high class butchers

The fate of mice and men  
We're sleepwalking again  
Into a mess of our own making  
The barricades are shaking  
This time in business suits  
Not in helmets or jackboots  
Pull the trees out by the roots  
And shake the ground with thunder

This ship is sailing  
Into deep dark waters  
All systems are failing  
We go like cattle to the slaughter  
To the slaughter...

Our fortress continent  
Our values torn and bent  
We bomb and when they run  
We tell them they can't come  
Just like in World War two  
We showed no pity on the Jews  
We othered them as well  
Abandoned them to hell  
"They're not welcome here"  
"Send them all back there"  
Where's the enlightenment  
Our crime, their punishment  
Our fortress continent  
Built on Colonial theft  
Our European mess...

This ship is sailing  
Into deep dark waters

All systems are failing  
We go like cattle to the slaughter  
To the slaughter...

Gangsters in uniform  
Praying for the coming storm  
Judeo-Christian soldiers  
Waiting for the orders  
To storm the citadels  
Fight the infidels  
Make a martyr of your son  
Teach him how to shoot a gun  
Pack his schoolbag with a bomb  
And keep praying to your God  
Because God is on your side  
Will your life be sacrificed  
To an old man in the sky?  
But to meet him you must die

This ship is sailing  
Into deep dark waters  
Wise men are bailing  
We go like cattle to the slaughter  
To the slaughter...
