

I Can Change

Primal Scream

I'm alone in the night
Without you
It's not right
See your face in my head
Empty space in my bed

I can change, I can change, I can change
I can change, change, change without you

And I know and I feel
And it's cold and it's real
And myself, I'm a fool
I'm alone without you

I can change, I can change, I can change
I can change, change, change without you

All the pain that I caused
All the time that we lost
Drink and drugs, self-destruct
Slept with death, molded love

I can change, I can change, I can change
I can change, change, change without you
