

Star Fruit Surf Rider

Primal Scream

She's a star fruit surf rider flower groove
Switchblade motorcycle baby blue
She is love love love, love love love
Shes a moon child sonic sister pleasure head
Treasure lips of crimson well looking so head
She is love love love, love love love

She's taking me away, I'm gonna go forever
Sugar ditch, honey hips, crimson lips of pleasure
The only one I want, she does just what she wants
And she is love love love, love love love
